MARCO BRESSI

Senior Web Developer — Front-End & Video Streaming

Turin, Italy • www.marcobressi.com • linkedin.com/in/mbrez

I am a senior web developer with over 20 years of experience in web and Smart TV applications, specializing in frontend (React, TypeScript) and video streaming (HLS/DASH, VoD and Live). Over the past year I have integrated AI into my daily work: I use Claude Code and AI agents to plan, develop and test features, applying prompt engineering techniques. I am also expanding my backend skills with Node.js (Express, databases, REST APIs). I am looking for a Senior Frontend or Fullstack role (React, Angular, Next.js, React Native, TypeScript + Node.js) where I can combine my experience on complex platforms, a focus on performance and user experience, and an AI-driven approach.

SKILLS

PROGRAMMING LANGUAGES
TypeScript · JavaScript (ES6+)

FRAMEWORKS
React · Next.js · React Native · Angular

BACKEND
Node.js · Express · REST API · Firestore · MongoDB

AI & TOOLING
Claude Code · Agenti AI · Prompt Engineering · Obsidian

Italian — Native

English — Good

WORK EXPERIENCE

JULY 2025 — PRESENT
Senior Web Developer @ Globant
- Developing front-end solutions for SmartTV and Web platforms as part of the FIFA+ project.
- Collaborating within the Video Player team to build and optimize high-performance streaming interfaces.
- Leveraging modern web technologies to enhance the user experience across multiple devices.
- Use Claude Code and AI agents throughout the development cycle, from analyzing existing code to planning, implementing and testing new player features, speeding up delivery times.

2020 — JULY 2025
Senior Web Developer @ Deltatre
- Developed web/webTV applications for DASH and HLS streams, VoD and Live, in React.
- Optimized video performance to improve quality and reduce buffering.
- Collaborated with teams on features such as Timeline Data, DVR, Overlays, Watch Together.
- Built automated tests and scalable architectures.
- Took part in the migration from a legacy system to a new modern architecture.
- Mentored junior developers.

2016 — 2020
Senior Web Developer @ Deltatre
- Developed web applications for DASH and HLS streams, VoD and Live, in Angular.
- Optimized video performance and introduced innovative features.
- Built automated tests to ensure code quality.

2012 — 2015
Web Developer @ Deltatre
- Developed an advanced video player for HLS streams, VoD and Live, in Flash/ActionScript.
- Optimized performance and implemented features such as Timeline Data and DVR.
- Introduced Agile methodologies, taking part in Scrum ceremonies.

2009 — 2012
Web Developer @ Deltatre
- Designed and developed dynamic web widgets and components, integrated into websites for major clients such as UEFA, FIFA, and the Olympics, in Flash / ActionScript.

2002 — 2009
Web Developer @ Testawebedv, Gruppo Armando Testa
- Designed and developed web and desktop applications in Flash / ActionScript for clients such as: Samsung, Lavazza, Lancia.
